# Junior Web Developer
## Umbraco/.Net/C#

** Campaign Best Place to Work Agency

** RAR Award-Winners

** Clients include Financial Times Live, Cats Protection, Haymarket Group, Bishops Move, AGM Group, Centaur Media, RSPCA

## Role overview

- We are currently expanding our development team in order to deliver some exciting new projects and are looking for an ambitious Junior Web Developer who would like to grow with us.
- The majority of our sites are built using the Umbraco CMS so you have the opportunity to bring any existing knowledge to the table to support, develop, modify and maintain a wide range of websites for a variety of clients.
- You will continue to learn with us as we help you become an Umbraco black-belt.
- We're also looking for someone passionate about new technologies and always wanting to grow their skillset.

## Hours / Location

This is a full time role - 5 days a week with your hours fully flexible across the week after discussion with us around core meeting times (which are via Zoom). We operate a work from anywhere policy with quarterly full team meet ups in locations around London and the South East plus the option to work at one of our hub offices in London or Kent when you want to work away from home at any time.

## Who we are

We are one of the UK's longest established and most trusted digital agencies. Founded in 1997 we're always a year older than Google!

**Our culture is set around Our 'Why':**

"To challenge and inspire growth so we thrive and exceed expectations whilst empowering people to live their best lives."

We attract people who want the flexibility to work wherever and whenever they like yet also want regular face-to-face contact, socialising and a challenging role. New employees constantly tell us "It really isn't like this anywhere else." Come and find out why!

# mcm

With a focus on Paid Search & Social campaigns together with technical SEO we work for a range of well known brands across a spectrum of sectors including B2B events, Publishing, E-Learning, Charities and Tourism, including a team serving the Icelandic market.

Our team enjoy a wide range of benefits including regular in house and external training courses, remote first working (with shared office choices if preferred), weekly and monthly face to face day meetings and team fun events, Health Insurance and reward benefits from Apple Watch through to subsidised gym membership and half price weekends away, Pension Scheme, fully flexible holiday allowance, a staff well-being committee who organise a host of regular activities, the opportunity to help drive the business forward via a series of focus groups and more.

## Main roles and responsibilities

- Developing new websites, databases and applications following a defined project brief and plan.
- Updating existing customer websites, adding new functionality and solving support requests.
- Liaising with customers when required and ensuring all requests are dealt with promptly and courteously.
- Contributing towards architectural design decisions and our internal coding standards.
- Developing in line with appropriate standards and internal practices.
- Proposing and assessing solutions to problems which includes identifying and evaluating new technologies.
- Keeping up to date with current industry developments and trends in order to remain at an exceptional level of technical knowledge.

## About You

- Passion for web development and knowledge of .Net/C#.
- Computer Science Degree would be advantageous but not essential.
- Excellent communication skills.
- Positive attitude and excellent problem solving abilities.
- Ability to work as a team and independently when required.
- Desirable knowledge/experience: Umbraco, APIs, Windows Servers and IIS, Gulp, Git, SCSS, SQL
