

.Net Developer

Full Stack/Umbraco/C#

** Campaign Best Places to Work Winner 2022

** RAR Award-Winners

** Clients include NBC, Arctic Adventures, Experience Travel Group, Cats Protection, Bishops Move, Islandshotel, Hospitality Finder

Role overview

- We are seeking for a .NET developer to create and maintain Umbraco websites. The successful candidate will have a strong working knowledge of the .NET framework and be comfortable developing, testing, and maintaining websites mainly built on the Umbraco platform.
- We're also looking for someone passionate about new technologies and always wanting to grow their skillset.

Hours / Location

This is a full time role - 5 days a week with your hours fully flexible across the week after discussion with us around core meeting times (which are virtual). We operate a work-from-anywhere policy with quarterly full team meet ups in locations around London and the South East plus the option to work at one of our hub offices in London or Kent when you want to work away from home at any time.

Who we are

We are one of the UK's longest established and most trusted digital agencies. Founded in 1997 we're always a year older than Google!

Our culture is set around Our 'Why':

"To challenge and inspire growth so we thrive and exceed expectations whilst empowering people to live their best lives."

We attract people who want the flexibility to work wherever and whenever they like yet also want regular face-to-face contact, socialising and a challenging role. New employees constantly tell us "It really isn't like this anywhere else." Come and find out why!

We work for a range of well known brands across a spectrum of sectors including B2B events, Publishing, E-Learning, Charities and Tourism, including a team serving the Icelandic market.

Our team enjoy a wide range of benefits including regular in house and external training courses, remote first working (with shared office choices if preferred), weekly and monthly face to face day meetings and team fun events, Health Insurance and reward benefits from Apple Watch through to subsidised gym membership and half price weekends away, a Pension Scheme, holiday allowance, a staff well-being committee who organise a host of regular activities, the opportunity to help drive the business forward via a series of focus groups and more.

Main roles and responsibilities

- Develop, maintain and enhance Umbraco web applications. This is a full stack role working on both front and back end development.
- Create clean code and develop in line with appropriate standards and internal practices.
- Liaising with customers when required and ensuring all requests are dealt with promptly and courteously.
- Optimise websites for SEO, performance, and accessibility
- Monitor website performance, troubleshoot and fix address any technical issues
- Develop and implement security measures
- Stay up-to-date with the latest web technologies and trends

About You

- 2+ years professional development experience (Umbraco advantageous)
- Passion for web development and knowledge of .Net/C#.
- Excellent knowledge of HTML5, CSS3, JavaScript, AJAX and jQuery
- Experience with responsive web design
- Excellent problem-solving skills and strong attention to detail
- Excellent written and verbal communication skills
- Ability to work as a team and independently when required.
- Computer Science Degree would be advantageous but not essential.
- Desirable knowledge/experience: APIs, Windows Servers and IIS, Gulp, Git, SCSS, SQL
